Dear Whitehorse Urban Cycling Coalition:

Thank you for your correspondence regarding the development of a Cycling Master Plan for the City of Whitehorse. The City appreciates the dedication and interest of groups such as yours in our shared infrastructure.

The City is undertaking plans for Downtown and Marwell this year. Addressing multi-modal transportation is a key objective of this project, which includes addressing connections between downtown, Two Mile Hill, Robert Service Way, and Mountainview Drive—network elements previously identified as needing attention.

The consultant on this plan will work with stakeholders and the public on identifying opportunities and solutions. The Whitehorse Urban Cycling Coalition has been identified as a stakeholder in this planning process and I trust you will participate energetically.

Looking ahead, the next Trail Plan update is scheduled for 2019. Under discussion is whether the Trail Plan can be expanded to address active transportation routes in addition to recreation routes. In the meantime, please stay in contact with Sabine Schweiger, Environmental Coordinator (668-8652) on progress on these projects and others pertaining to active transportation in the City of Whitehorse.

Sincerely,

Dan Curtis
Mayor
CITY OF WHITEHORSE
